

HYDE MUST STAND TRIAL IN THIS CITY, AGAIN RULES COURT

Appellate Division Sustains Decision of Lower Jurisdiction; Quick Trial Likely.

Former City Chamberlain Charles H. Hyde must go to trial in New York County on indictments charging bribery, growing out of the Carnegie Trust Company scandal. The Appellate Division of the Supreme Court today unanimously affirmed the order of Supreme Court Justice Lehman of Jan. 5, 1912, denying Hyde a change of venue.

A lengthy opinion written by Justice John Proctor Clarke, accompanies the decision. In it the court decides that Hyde's chances for a fair and impartial trial have in no way been injured as a result of the extensive publicity he has received.

The effect of the Appellate Division's decision will enable District Attorney to force Hyde to trial at once. It is not thought likely that an appeal will be taken to the Court of Appeals.

In his decision, Justice Clarke says: "Impressions made by the reading of

newspapers are ephemeral and jurors in this country have, in a number of notable cases, although surrounded by evidence of great popular feeling, not been swayed thereby. Considering the population of this country, our large general jury list and our carefully selected jury panel, we feel perfectly confident that it is not necessary to send this indictment for trial to any other county."

District Attorney Whitman will move in the Criminal Branch of the Supreme Court on Feb. 22 that the trial of Hyde be called on Tuesday, March 5. He expects that Hyde's attorneys will ask for more delay, but will oppose an adjournment for longer than one week.

CHINESE CELEBRATE.

PEKING, China, Feb. 15.—The celebration of the proclamation of the Republic of China is being observed with great enthusiasm in numerous cities, and no reports of serious disorders have come to hand.

Gen. Li Yuan-Heng, the Republican military leader at Hankow who was appointed Vice President of the Republic by Sun Yat-sen, urges the selection of Wu-chang, in the Province of Hu-Pei as the capital of the Republic.

It is thought in some quarters that he is doing this with a view to securing Yuan-Shi-kai to splitting opinion among the Republicans in the South.
